

STANLEY®

JAMB CAM Security Camera

- INCREASES SECURITY AT ENTRANCES
- COMPATIBLE WITH EXISTING SECURITY SYSTEMS
- LOW PROFILE DESIGN
- TWO LENS OPTIONS AVAILABLE
- UP TO FOUR CAMERAS PER DOOR

THE JAMB CAM PROVIDES INCREDIBLE SECURITY SURVEILLANCE IN A TINY PACKAGE.

Jamb Cam increases security surveillance where you most need it, at entries and exits.

Low profile cameras come with either a wide angle or telephoto lens for surveillance or identification.

Jamb Cam interfaces with existing building security and will continue to operate when the door is turned off.

Up to four cameras can be installed per door to provide full coverage in one-way or two-way pedestrian traffic flows.

Optional video cables are available to simplify security system connections.

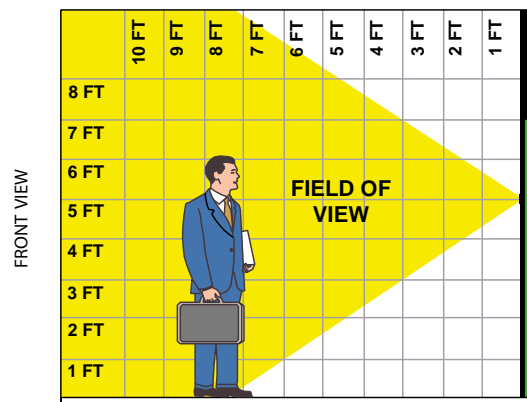

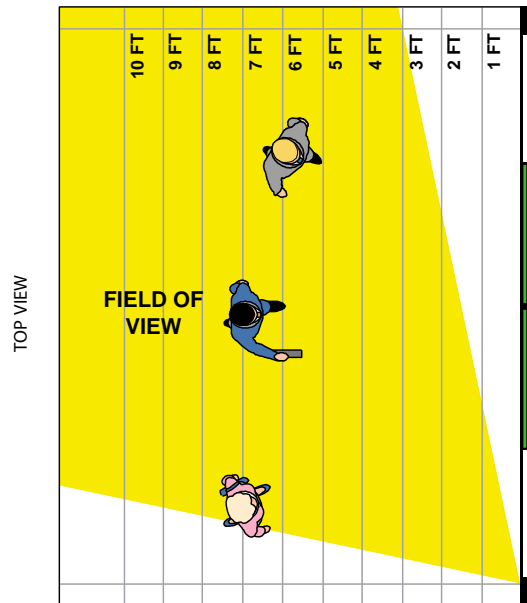

The Jamb Cam Security Camera - the most effective, reliable, security solutions for pedestrian safety.

STANLEY® JAMB CAM Security Camera
