

GET INSTANT PATIENT PRIVACY IN HEALTHCARE ENVIRONMENTS

DURA-CARE™ ELECTRONIC PRIVACY GLASS

Balance patient visibility and privacy with the flick of a switch

- Translucent glass instantly turns transparent with the application of electric current
- Eliminates the need for additional privacy offerings
- Electronics and mechanics concealed in header for streamlined appearance
- Offered as an option on Dura-Care™ 7000 Series single slide and 2- and 3-panel with full break-out functionality

Infection control

- 92% of hospital privacy curtains are contaminated with potentially dangerous bacteria*
- This bacteria on curtains can transfer to clean hands or gloves of hospital workers, leading to infections

Long-term cost savings

- U.S. hospitals see over 1.7 million health care associated Infections each year at a cost of up to \$45 billion a year**
- 1 ICU curtain for 1 year, including laundering is \$1,696. That's \$10,176 invested for the 6 year lifecycle of the curtain**

Space efficient

- Effectively add square footage to small ICU rooms while eliminating the nuisance of curtains and curtain rods

DURA-CARE™ ELECTRONIC PRIVACY GLASS

Privacy Glass Product Specifications

Available Dura-Care ICU/CCU packages	7000 2-Panel, 7000TL
	7200 2-Panel, 7200TL-FBO
